

To Whom It May Concern:

I am writing to support the submission of the Village of Marcellus DDA Main Street Bridge Builders Grant. As the Village of Marcellus DDA rethinks community engagement, talent retention, building sustainably, and expanding conversations for more accessible downtown engagement opportunities, their proposal of a Farm to Fiddle event would serve to provide an approachable platform to encourage civic engagement.

In addition to broadening the potential for community participation, the event will support existing businesses, the local creative community, our agricultural partners, and offer residents a fun, diverse, and accessible event.

We look forward to supporting the Village of Marcellus DDA in implementation and celebration.

Warmly,

Sarah Ayers

Economic Development Director
