To whom it may concern,

I fully support the Highland Downtown Development Authority's Public Art and Mural Program.

Highland Township is very lucky to have such an active DDA that is so dedicated to increasing the health of our businesses and the culture of our Downtown.

The HDDA's second mural project will help them towards their strategic objective of enhancing public space for people to connect and gather and promote nature, the arts, and our history in our downtown. This project will attract new businesses, create jobs, attract visitors, and increase spending in our Downtown.

As a member of the Highland Board of Trustees and the Treasurer of Highland Township, I appreciate the Downtown Development Authority's planning, visions, and hard work for Highland Township, our Downtown, our businesses, our residents, and visitors.

Sincerely,

Jennifer Frederick,
Treasurer and Trustee,
Highland Township

Warm inside. Great outdoors.
