To whom it may concern,

Highland Township fully supports the Highland Downtown Development Authority's Public Art and Mural Program.

The HDDA's mural project will help complete their strategic objective of enhancing public space for people to connect and gather and promotes nature, the arts, and our history in our downtown. This project will attract new businesses, create jobs, attract visitors, and increase spending in our Downtown.

We appreciate the Downtown Development Authority's planning, visions, and hard work for Highland Township.

Sincerely,

Highland Township
